

Nightlife (HDMS case build 9) Technical Specifications

Please call our technical support team with any questions pertaining to the installation of your new system:

1-877-890-6182

DIMENSIONS

Dimensions (in.): 7 x 16.5 x 13.75 (W x D x H)

Weight: 20 lbs.

VIDEO

Single video zone distributed via 4 composite outputs

Single video zone distributed via video adapter will allow for a single Component or S-Video output.

Note: Video quality on the HDMS system is standard definition. Standard definition, the primary resolution used in DVD quality content, is 4:3 640 x 480. Utilizing outputs such as the component or S-Video output does not increase the resolution of the music videos.

AUDIO

2 RCA Stereo outputs for one single zone of multi-channel audio. A third stereo output is provided and can also be used as a headphone send for DJ purposes.

NETWORK/INTERNET REQUIREMENTS

Internet is not available for the HDMS currently.

POWER REQUIREMENTS AND VENTILATION

- Clean power required/dedicated breaker
- Microphones, Speakers, and other equipment that use Magnets should be kept at least 10 feet away.
- HDMS requires 5 inches of space on rear/side and top for ventilation
- HDMS should be placed in an environment no less than 60° F. and no more than 80° F.

OTHER

- Should be kept away from food and liquids
- Monitors sold separately
- No objects should be kept or stacked directly on top of the system
- Unit should be located in a fairly dust free environment. If such circumstances are not achievable we need to schedule regular cleanings.
